Workshop for Parents

The ISF Libraries provide workshops for parents about the following topics in the beginning of the school year:

- How to login and use your library account – an introduction to The ISF library automations system and search online library catalog
- Brief introduction to databases and how to use them
- How to read with your children in a fun and productive way
- How to use library resources to help your children to learn (Big Six Research Model)

Details are provided on the school circular at the beginning of every school year. In addition, the ISF Libraries would be happy to provide workshops during any appropriate time of the school year if parents made the requests. Parents are welcome to form a group with at least 10 persons and inform us the language they need (English, Putonghua or Cantonese), and we will make arrangements about time and venue.
