

## **Extension of Financial Aid (FA) to Cover Fees of Co-Curricular Activities (CCA) Program and Experiential Learning Program (ELP)**

To encourage our students under FA program to acquire learning experiences in a holistic manner, the FA Committee has approved to extend FA to cover fees of the Co-Curricular Activities (CCA) Program and Experiential Learning Program (ELP). All FA recipients will benefit from the extended coverage with effect from Monday, February 26, 2018, the start of Primary Semester 2 and Secondary Trimester 3.

FA for ELP will automatically apply to all FA recipients. The amount of FA for ELP will be apportioned according to the percentage of tuition fee remission approved in the case.

With regard to FA for CCA, the amount offered will be apportioned in accordance with the approved percentage of tuition fee remission, but the total amount will be capped at 10% of annual tuition fee for the academic year.

Parents will receive reimbursement for actual expenses paid for any CCA organized by the Academy's CCA Department. Activities in the CCA Program include school teams, recreational, invitational and special interest activities. The CCA Department will provide an attendance record and there is a minimum CCA attendance requirement of 80% to qualify FA parents for the reimbursement. Please note that external activities, i.e. activities not organized by the Academy's CCA Department, are excluded and the related expenses paid will not qualify for any reimbursement.

As the extended coverage is only available to FA recipients, parents should apply to the [Financial Aid Program](#) first.

Should parents require any assistance, please send an email to the Finance Office at [finance@isf.edu.hk](mailto:finance@isf.edu.hk).
